

TIMOTHY E. TILLEY, DISPATCHING DEPARTMENT, is seen in a preemployment interview with Personnel Representative James Williams. Tilley came to Y-12 March 18, after graduation from the University of Tennessee. Williams, a recent addition in Y-12's Employment Department, is a graduate of Drury College, Springfield, Missouri. He attended Drury on a basketball scholarship and was captain of the team his junior year, the year Drury won the Missouri College Athletic Union conference title. He served as captain again his senior year. In Employment, Williams screens, selects and hires weekly salaried employees.

Hiring Policies Restated In Affirmative Action

Nondiscriminatory hiring was made the law of the land for most major industries in the Civil Rights Law of 1964. Union Carbide Corporation recognized its moral responsibilities prior to that. It was on May 29, 1962, along with other major corporations, that Union Carbide entered into an agreement with President John F. Kennedy entitled "Plan for Progress."

The "Plan for Progress" agreement defines the employment policies of Union Carbide as:

"It is the policy of the Corporation to afford individuals of all religions, races, colors, and national origins equal opportunity for employment, for advancement in employment, and for continuation of employment, with due regard for the relative qualifications of all involved."

Affirmative action was pledged to implement the above to encourage members of minority groups to compete within the framework of the above employment policy for employment, advancement in employment, and continuation in employment.

It was also recommended that these minorities should be encouraged to seek opportunities for informal on-the-job training and any formal job training underwritten by Union Carbide.

Recruitment at selected higher and secondary educational institutions now includes schools serving substantial members of minority groups. In other words, the predominantly Negro schools and colleges are included as a regular source for new employees.

Nondiscriminatory hiring is not only democratic, it is also beneficial to minority groups in providing them equal opportunities for jobs. It is also beneficial to industry as a whole in providing a broader spectrum from which to recruit employees and in developing the whole of our country's human resources.

The Bulletin, from time to time, hopes to picture minority employees at various stations of work throughout the plant. This is not done as self-praise or aggrandizement, but is done as a progress report to ourselves. A certain segment of our society sees minority groups only in menial jobs. These photographs will serve as an educational tool, proving to them and to ourselves that qualified people are fitted to

Continued on Page 4

C. E. LARSON, PRESIDENT of the Nuclear Division of Union Carbide, celebrated his 25th anniversary with the corporation April 8. Above, he receives his 25-year certificate from John A. Swartout, corporate headquarters executive in charge of UCC's contract with the Atomic Energy Commission. Dr. Larson was assistant superintendent of the Chemical Division in Y-12 until 1948 when he was made Plant Superintendent. He served here until 1950 when he became director of Oak Ridge National Laboratory.

Clark Center Park With Improvements Braces For Another Banner Summer!

The 250-acre Clark Center Park is gearing for another record-breaking season, with some new additions this year.

Across the hollow from Y-12 . . . beyond the old Scarboro school (where the University of Tennessee Agricultural Research Program stands) . . . on a beautiful neck of Melton Hill Lake stands the Carbide Recreation Area, named the Clark Center Recreation Park at Center's retirement last June.

Opened during the summer of 1965 the park has seen a gradual increase in numbers using the area. Only on a limited basis did it open the first summer . . . yet over 5,000 persons visited the area then.

Attendance now is estimated at between 13,000 and 14,000 each year, not including those using the boat launch, swimming and beach areas.

Visitors this year will note many improvements in facilities there. The softball field, located on the left at the entrance of the park, provides bleacher space for about 40 spectators. A water fountain has been installed at the field and a new fence installed. The outfield has been reseeded with grass and the infield sanded in an effort to improve drainage.

Hugh Parking Area

Immediately across the road from the field is a rocked parking lot and game area. This area, which is lighted also, includes courts for basketball, volleyball, shuffleboard and badminton.

Speed breakers are placed periodically throughout the park roads, and a schedule has been set for the park for cleaning up during the summer months.

Picnic Area One, the first pic-

Continued on Page 4

THE NEW BEACH AREA to be opened this summer at the Clark Center Park is seen with a lifeguard station. The lifeguard will be on duty from 11:30 a.m. until 8 p.m. seven days a week. Swimmers are asked to swim only in designated swimming areas.

WORKMEN PUT THE FINISHING TOUCHES on a retaining wall at Clark Center Park where white sand will be dumped for the benefit of sunbathers. Other sunbathing areas are available in the 250-acre park set aside for use by Union Carbide employees.

Statement . . .

The Board of Directors of Y-12 Employees Federal Credit Union announces that the shortage that was disclosed recently and announced in the press April 9 was completely covered by the Credit Union's performance bond. No shareholder accounts have been affected in any way, and there will be no changes in services.

An irregularity was discovered by office personnel and reported by Lorena Causey, Credit Union manager, to the Atlanta Regional Office in late February. The subsequent regular federal examination uncovered the nature and extent of the shortage. The apparent discrepancy amounted to approximately \$1,100, and appropriate personnel changes have been made in the office staff.

The Board of Directors regrets the occurrence, and assures all Y-12 Credit Union members that the organization continues to be financially sound. All directors, other officials, and employees are, and have been, covered by a \$2,000,000 faithful performance bond.

Group Insurance Plan Pays 11% Dividend

Employees who participated in the Group Insurance Plan in 1967 are receiving a dividend check this week. It represents a return of approximately 11 per cent of the premium payments made under the Group Insurance Plan last year. (A 12 per cent return was made last year for 1966.)

DANNY STINNETT, lower photo, age four, welcomed little sister Sharon Kay Stinnett into the household January 17. Sharon weighed seven pounds, 10 and one-half ounces . . . the pride and joy of Dixie and Don Stinnett. Don is in Y-12's Production Scheduling, and Dixie, herself, is a former Y-12er. Handsome kids, eh?

New Sweet Berry Is Name Serendipity!

A red berry has been discovered in Nigeria that scientists believe to be the sweetest natural substance on earth. Dr. G. E. Inglett, U. S. Agriculture Department, told about the berry at a recent American Chemical Society meeting. The berry is 1,500 times as sweet as sugar, 400 times as sweet as saccharine, and tastes better than commercially available sweetness. It grows wild, in a cluster on a vine, similar to grapes. The berry has been named "serendipity," a word meaning something discovered by chance when one wasn't looking for it. The intense sweetness of the berry was discovered the same day that research was discontinued on another miracle fruit. Hence, the new product has been named serendipity.

Goethe once said, "So then the year is repeating its old story again. We are come once more, thank God, to its most charming chapter." Coming to an important chapter in their Union Carbide Corporation history are more Y-12ers. Congratulations.

'Unwise To Pay Too Much—Or Too Little!

"It is unwise to pay too much, but it's unwise to pay too little. When you pay too much you lose a little money, that is all. When you pay too little, you sometimes lose everything, because the thing you bought was incapable of doing the thing you bought it to do. The common law of business balance prohibits paying a little and getting a lot—it can't be done. If you deal with the lowest bidder, it's well to add something for the risk you run. And if you do that, you will have enough to pay for something better." John Ruskin.

DON'T GAMBLE

Don't gamble that your home is safe from fire. How about those oily rags in the kitchen closet—or those old clothes and papers in the attic? One tiny, stray spark and you're out of luck—and a home. Clean up!

SECRETARIES WEEK COMMITTEE, seen above, is all set for activities next week which will salute secretarial services in the area. The week, April 21 through April 27 has been set aside as Secretaries Week and next Wednesday, April 24 is designated Secretaries Day. The committee, from left, are Nelline Ross, president of the local chapter of the National Secretaries Association; Sarah McLean; Mary Yaggi; Jo Acres; and Alease Hibben. Neelie King was absent when the photo was made.

Better Secretaries Mean Better Business Theme For Secretaries Week April 21-27

"Better Secretaries Mean Better Business" is the theme of Secretaries Week, which falls on April 21 through April 27. Next Wednesday, April 24 has been set aside as Secretaries Day.

Mary Yaggi, CPS, is serving as chairman of the 1968 Secretaries Week for the Oak Ridge Chapter of the National Secretaries Association, International. Nelline Ross, CPS, is president of the local chapter.

Secretaries Week is sponsored by the NSA which has over 25,000 members. Members of the local chapter will display a red rose on their desk next week. The chapter will also publicize the activities with window displays in local stores, a billboard, posters, table tents and radio spot announcements.

Special attention during Secretaries Week will focus on the Certified Professional Secretary Program which provides certification to secretaries completing the examination successfully. At present there are 3,901 CPS's in the United States, Canada, and Puerto Rico, including eight men. Union Carbide Corporation has more CPS's than any other major U. S. Corporation. There are 140 in Tennessee, and the Oak Ridge Chapter has 12. There have been 33 CPS's certified while living or working in Oak Ridge. Of these, 22 are currently employed in Union Carbide Corporation's Nuclear Division, Oak Ridge; one by Oak Ridge Associated Universities; and one by the Oak Ridge School System as a school teacher.

Library Will Turn Heads For Overdue Books

Do you have an overdue book — or two, maybe — that you would like to return to the Oak Ridge Library without paying a penalty?

Take advantage of the Library's Free Days, April 25, 26, and 27 . . . and you may bring back all the Library's books you have. There will be no fines and no questions asked.

Book drops are located at the Library and at the Municipal Building.

22 Secretaries Carry CPS Title

The Nuclear Division of Union Carbide Corporation proudly boasts 22 secretaries who have qualified to use the distinct title Certified Professional Secretary.

The following 22 employees have passed the rigid examinations:

Jo Acres
Norma Beeler
Melba Bolinger
Georgia Bower
Betty Burns
Gladys Carpenter
Evelyn Cole
Ruth Curl
Marie Cuthbert
Margaret Elmore
Marigrace Kirstowsky
Ruth Lassiter
Yvonne Lovely
Cora McAfee
Ada Misk
Mary Helen Owen
Rebecca Rickman
Peggy Roberts
Nelline Ross
Barbara Stonecipher
Mabel Tyer
Mary Yaggi

Perhaps the participation of a large number of Union Carbide secretaries in the NSA program has been due to the support of management. Recently, Dr. C. E. Larson, President of UCC's Nuclear Division, stated, "Union Carbide's appreciation of NSA's goals and programs has grown with our observance of the excellent work of the local Chapter. We have been impressed by the elevated level of performance noted in the secretaries who are actively participating in this professional endeavor. In addition, we are proud of the fact that there are 22 Certified Professional Secretaries working at the Oak Ridge installations — the largest number for any one organization in the United States."

Although NSA officially sponsors Secretaries Week, observance is not limited to membership alone, but to all secretaries everywhere who are indispensable and integral part of management's ad-

ministrative team in business, industry, education, the professions, and government.

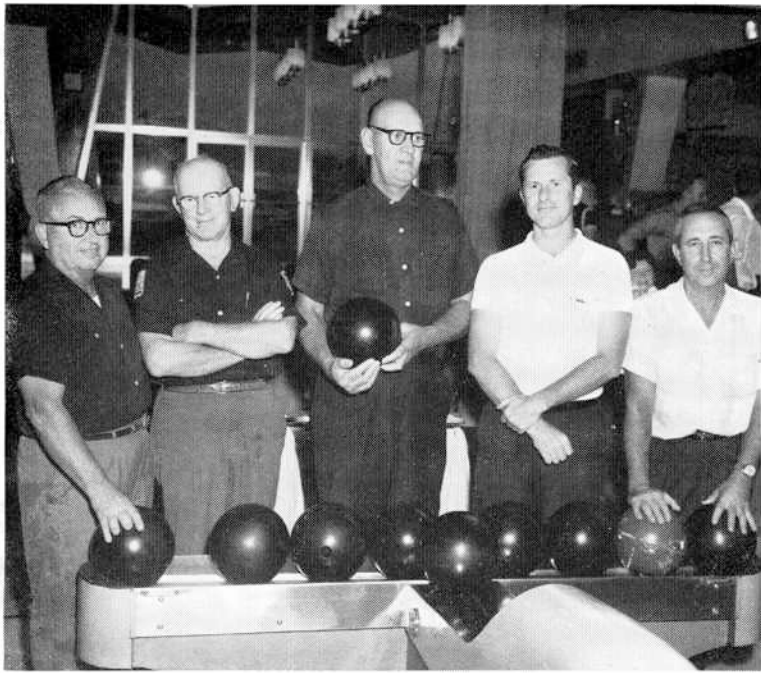

Members of the local Secretaries Week Committee are: Joe Acres, CPS; Alease Hibben; Neelie King; Ada Misk, CPS; Sarah McLean; Mabel Tyer, CPS; and Mary Yaggi, CPS. Mary Cusman is Chairman of the Boss of the Year and Secretary of the Year Committees, and Natalie Tarr is Chairman of the Bosses Night dinner, scheduled for April 27.

Consumer Products Produces 800 Batteries

Union Carbide's Consumer Products Division sells over 800 types of batteries — under the Eveready and Hercules trademarks and also under custom brands. Other products of the division include Eveready and Captain flashlight cases and lamps; Prestone anti-freeze and car care products; "6-12" brand insect repellent; Linde Stars; and the Glad line of household materials consisting of wrap, bags and straws.

REBECCA MARIE CARDEN, the pride and joy of the L. T. Carden Jr. home smiles for the camera above. Carden, in Data Processing, lives in Oak Ridge.

RETURNING TO THE WINNING CIRCLE in the Classic Bowling League are the big Rippers. The Rippers up until last year were contenders for the crown almost every year, and now have found their way back to the top. They are, from left, Nelson Tibbatts, Al Groppe, Paddy Peckman, Wayne Groppe, and Jay Holzknicht.

Rippers Take Classic Bowling Crown From All Stars, Downing Them 119 Pins!

The Rippers who won the last half of the Classic Bowling League defeated the All Stars in a championship roll-off last week. They downed their victims by 119 pins.

The Rippers took the first game 952 to 873 . . . and the second one 991 to 894. The All Stars did win game three 978 to 921, but the

margin was not enough.

The Rippers' Jay Holzknicht rolled a 223 high single . . . which made him a 239 handicap game.

The league has already organized for next year's 16-team competition. The Classic League is the oldest, biggest bowling league in these parts.

Frequency Of Hand Injuries Pointed Out

More than 23 per cent of all injuries to the body occur on the hands and fingers. In Y-12, the percentage is even higher. How do they easily get hurt? By trying to make adjustments or repairs to moving machinery with guards removed, by getting struck against or caught between hard substances. Some get punctured, cut, sprained, burned. Keep in the mind the frequency of injuries to hands and fingers . . . and be careful to safeguard yours.

EARLY TO BED

The sergeant rudely shouted, "Alright, men, it's four-thirty in the morning."

The rookie stuck his head from under the covers and answered, "Four-thirty, man you'd better get to bed. We've got a big day tomorrow."

Nothing said, nothing disclosed.

TOMMY WEBBER, PRODUCTION SCHEDULING, took the first place in Skeet shooting in March's competition. He is seen above with his gift certificate. The next shoot is scheduled for this coming Sunday, April 21, at 1 p.m., at the Oak Ridge Sportsman's Association range.

Rounders-Parbusters Sure C League Tops

The C League belongs either to the Parbusters or the Rounders. (The Rounders took the league's first half in bowling . . . and stand one point away from the top rung in last half's rolling.) The Parbusters plastered the Invalids for four points last week . . . and the Fireballs let fury loose on the HiLifers.

Winning three were the Badgers over the Royal Flush, the Big Five over the Rounders and the King Pins past the Rollmasters. Two and one-half points were gleaned by the Rodders past the Sunflowers.

"Red" Halsey, Sunflowers, rolled a 235 scratch game. T. R. Butler, Parbusters, took a 253 handicap single. Halsey's series were high . . . 618 scratch, 666 handicap.

The Sunflowers zeroed in on singles . . . 954 scratch, 1059 handicap . . . and their series of 2642 scratch was high. . . Their 2957 handicap series tied with that of the Rodders.

A position roll-off Monday night was set to determine the winner of the last half. If the Parbusters won . . . they will face the Rounders in a roll-off. If the Rounders won more than two points . . . they are grand champs.

League standings follow:

Team	W	L
Parbusters	39	17
Rounders	38	18
Badgers	34	22
Sunflowers	32½	23½
Big Five	31	25
King Pins	28	28
Fireballs	26	30
HiLifers	25½	30½
Rodders	23	33
Rollmasters	21	35
Invalids	19	37
Royal Flush	19	37

Campers Plan 1st Spring Campout

The Talahi Chapter of the National Campers and Hikers Association will be going to Elkmont Camp Ground in the Great Smoky Mountains National Park on the weekend of April 20, 1968 for their first spring campout. The group will gather on Saturday evening for a pot-luck supper and a short business meeting following the meal.

The local group composed of families who enjoy the atmosphere of campfire meet once each month throughout the Spring and Summer for a weekend of family camping.

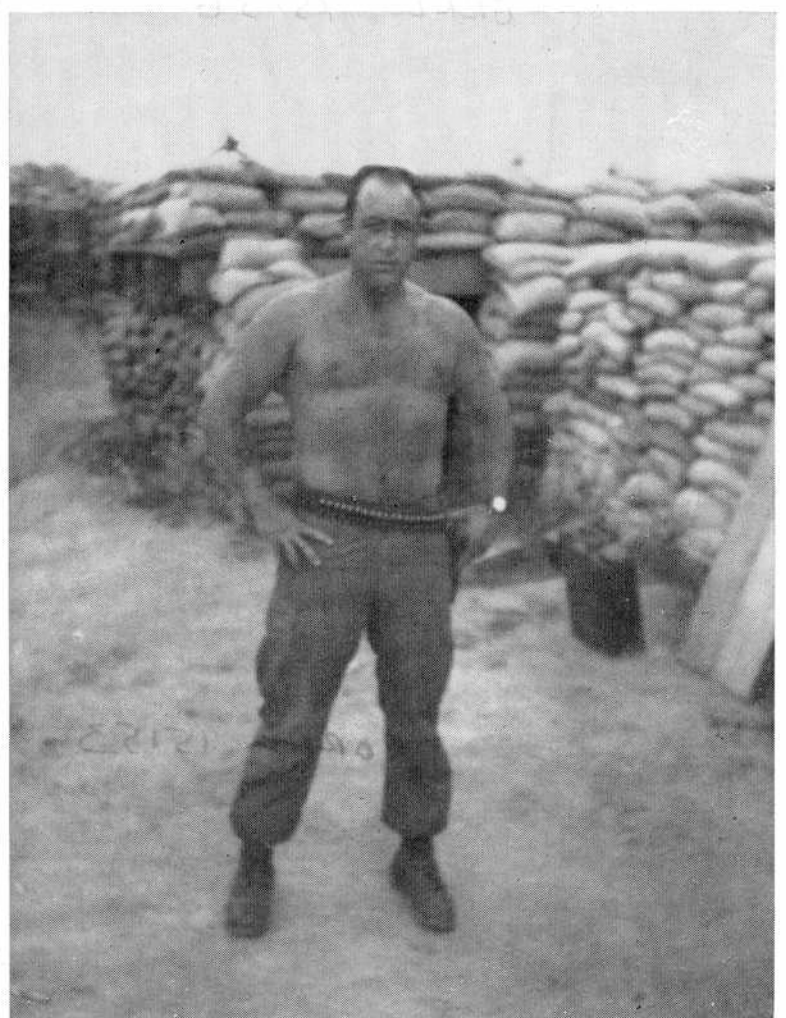

The National Campers and Hikers Association is probably the fastest growing organization of its kind in the nation. The Talahi Chapter is beginning their third camping season since it was chartered early in 1966.

The organization is made up of families from all walks of life with one common interest of camping for family fun in the outdoors in places near and far.

The Chapters of East Tennessee will be host to the campers throughout the state on May 11, 1968 when the Tennessee National Campers and Hikers will hold an annual campout and meeting at Cades Cove Camp Ground in the Great Smoky Mountains National Park.

George A. Holt, 102 Miramar Circle, is president of the Chapter. Visitors are always welcome at the meetings and anyone who thinks he would like to join such an organization may get further information by contacting any of the members or Dean Reed, Alpha Five Processing, 172 Northwest Avenue, Oak Ridge, who is chairman of the Membership Committee.

Carry out your security assignment.

THE HOT CLIMATE OF VIETNAM caused Staff Sgt. James L. Gibbs to shed his shirt on his recent tour there. Jim has already served one hitch in that far-off Asian country, and has volunteered for another six-month's tour there. He recently visited his folks, Mr. and Mrs. Amos A. Gibbs, Route 5, Clinton. (Gibbs is in Y-12's Receiving Department.) Sgt. Gibbs, a career soldier, has already put in 10 years service. He attended Clinton High School, and finished in the Army. (Says he is more afraid of poisonous snakes than he is of the Viet Cong!) Amos took a three weeks vacation recently to enjoy his son's visit home.

Recreation

Sunday, April 21

SKEET TOURNAMENT: 1 p.m., Oak Ridge Sportsman's Association.

Monday, April 22

BOWLING: C League, Championship Roll-Off, 5:45 p.m. Ark Lanes.

PHYSICAL FITNESS: (For Women): 7:30 p.m., Oak Ridge High School Gym.

VOLLEYBALL: Beginning 6:30 p.m., Oak Ridge High School Gym. Court A: K-25 Gashouse Gang vs. Mix Ups; Dirty Half-Dozen vs. Ecobums; Old Men vs. Set Ups. Court B: Mountaineers vs. Beavers; Neophytes vs. K-25 Hawks; Charley Browns vs. Naughts.

Tuesday, April 23

PHYSICAL FITNESS: (For Men) 7:30 p.m., Oak Ridge High School Gym.

Wednesday, April 24

GOLF: Deadline for entering April 27 tournament . . . 4:30 p.m.

Thursday, April 25

GOLF: 8:30 a.m. Drawings for tee-off times.

BADMINTON: Informal Play employees and spouses, 7:30 p.m. Jefferson Junior High School.

VOLLEYBALL: 7 p.m. Oak Ridge High School Gym. Playoff if needed.

Saturday, April 27

GOLF TOURNAMENT: Beginning 6:30 a.m. Southwest Point, Kingston.

Beavers Hold To Volleyball Top

The Y-12 Beavers continue their tight rein on the Volleyball League as they plastered the K-25 Gashouse Gang for four games last week. Their scores were 15-4, 15-6, 15-2, and 15-5.

The Dirty Half-Dozen trimmed the Old Men 15-11, 15-13, 15-12 and 15-7. The Ecobums overcame the Naughts 15-2, 15-3, 15-4, 15-5.

On Court B the K-25 Hawks hoodwinked the Mix Ups 15-8, 15-6, 15-12 and 15-13. The Set Ups sank the Mountaineers 15-13, 15-13 and 15-8, losing game three 15-4. The Neophytes felled the Charley Browns 15-8, 15-9, and 15-8 . . . and the CB's took game four 15-11.

League standings follow:

Team	W	L
Beavers, Y-12	31	1
Dirty Half Dozen, K-25	28	4
Ecobums, ORNL	27	5
Old Men, ORNL	24	8
Set Ups, ORNL	20	12
Neophytes, Y-12	17	15
Mountaineers, Y-12	14	18
K-25 Hawks	14	18
Charley Browns, ORNL	8	24
Naughts, ORNL	5	27
K-25 Mix Ups	3	29
K-25 Gashouse Gang	1	31

Softball League Closes Doors Friday, April 19

The Recreation Department is putting a cut-off date for entries in the Softball League. Friday, April 19, at 4:30 is the deadline. If your team is not in by then . . . sorry.

Individuals wishing to obtain a seat on a team, should call Recreation 3-7109, and get listed. Some teams have openings.

It looks like a good league this year, with several Y-12 teams already in, and three listed from K-25. (ORNL will have its own league.)

Tee-off Time Preferred _____

Fill out completely and return to the Recreation Office, Building 9704-2. Deadline for entering is 4:30 p.m. Wednesday, April 24. Tee-off times will be drawn the next day, Thursday, April 25 at 8:30 a.m.

A CANOE LAUNCH HAS BEEN INSTALLED for the convenience of the Carbide Canoe Club and other canoenthusiasts. The many-fingered coves of Melton Hill Lake, where the Park is located, offers some of the most scenic views in the area.

NEW PICNIC AREA IS INSTALLED for this summer's rush of outdoorsmen from Union Carbide, as the Clark Center Park braces for another big season. The numbers have increased every year since the Park was opened on a limited basis in 1965.

Clark Center Park Improvements

Continued from Page 1

nic area to be reached, features a concession stand and restroom facilities. Written permits are required for departmental and divisional outings here. (Reservations may be made in advance.)

Pavilion Enlarged

An additional convenience at the 39-table area is a large pavilion, which has been extended 15 feet since last summer. A loud-speaker system is also available at the pavilion. In the area, a grill is provided for every two tables in the park. Swings, sliding boards, gymnastic bars, see-saws and flying jennies are scattered throughout the area to keep the youngsters occupied.

A nature trail circles the ridge above Picnic Area One to a beautiful vantage point overlooking the park and the main channel of the Lake. Shrubs and flowers have been planted along the trail to accompany many of the native flowers already there.

Perhaps the busiest place in the park is the boat launching ramp. Individuals are reminded to remove their car and trailer to the parking area after their boat has been launched so that the next fellow may have access to the water. The adjacent parking lot can accommodate 36 cars and boat trailers. Boaters are also reminded that the three MPH speed limit in the harbor area is strictly enforced.

Canoe Launch Added

One of the newest facilities to be added is a canoe launch. Built for the Carbide Canoe Club, the

float is located across the road from the boat launch area.

A retaining wall will be finished with white sand for the beach area by the time swimming season is here. Two sunbathing areas, currently sown in grass, are expected to be ready within the next few months. One of these areas is located behind the beach and the other adjacent to the beach. To meet the expected increase of swimmers and sunbathers, a new parking lot has been constructed at the entrance to the beach area. Plans also include a concession stand in this area.

Lifeguard On Duty

A lifeguard tower has been installed . . . and a lifeguard will be on duty from 11:30 a.m. until 8 p.m. seven days a week this summer. A locked telephone will be installed at the site for use by the lifeguard in case of an emergency. Those using the Park are reminded that swimming is allowed only in the designated swimming area.

Another popular feature of the Park among Y-12ers is the camping area . . . on into the Park. There are approximately 50 to 60 campsites available and permits are obtained from the Recreation Department. A \$1 deposit is required for a gate key, which is returned when the key is returned.

Additional picnic tables and grills are currently being installed in Picnic Area Two, and it is expected these will be ready soon. Reservations are not re-

'Odd Couple' Set To Open April 26

The Oak Ridge Playhouse will present the big hit, "The Odd Couple," Friday and Saturday, April 26, 27 and Thursday, Friday and Saturday as well as Sunday, May 2, 3, 4, and 5. All performances are at 8:20 p.m. Tickets go on sale Monday, April 22, and will be available between 10 a.m. and 5:30 p.m. during the run of the show at the Box Office in Jackson Square.

"The Odd Couple" begins with one of the funniest poker games ever played on stage. Oscar, the slovenly host, serves his buddies the worst looking sandwiches they have ever seen and opens warm beer all over them as well as the table and the cards and rug. Eventually the sixth member of the group shows up, abnormally late. He has been kicked out by his wife and is in a state of disarray. Inevitably, Oscar, the sloppy one, blunders into asking his friend Felix to share his apartment in order to reduce him from the doldrums and both of them from overwhelming expenses. And thus begins the misalliance of the century. Oscar is content to live like a slob, and Felix is a demon housekeeper. Oscar will eat anything, Felix is a gourmet. In short, they drive each other mad. The resolution of the problem leaves the audience limp with laughter.

The play is under Paul Ebert's direction. Production manager is Mrs. David Alford. Starring as Oscar and Felix will be Harley Ross and Francis McKinney. The play is suitable for upper elementary, junior high and senior high students. Student prices will be in effect for the April 26, May 2 and 5 performances.

Ride wanted from Village Apartments, Fountain City, to East Portal, straight day. Doris Simpson, plant phone 3-5311, home phone Knoxville 687-8317.

DARRYL D. JACKSON is shown getting his stripes in Vietnam. From left, Brigadier General William Knoulton, and Colonel F. G. Gosling, right, do the honors for Specialist Fourth Class Jackson, the son of David Jackson, Process Maintenance. Young Jackson is stationed at Tan San Nhut, just outside Saigon in Vietnam.

Jackson Son Receives Stripes As Duty In Vietnam Will End In July

Darryl D. Jackson, son of David Jackson, Process Maintenance, was recently promoted to the rank of Specialist Fourth Class in Vietnam.

Jackson is assigned to Military Assistance Command Vietnam (MACV) Headquarters at Tan Son Nhut, just outside Saigon. His primary duty is that of an

administrative supervisor in the plans and programs division and he serves as liaison between officers and enlisted men.

Jackson who has been in Vietnam six months expects to return to his Kingston home in mid-Summer. Among his other duties are briefings of Senators and Congressmen who visit Saigon and other points in Vietnam.

Hiring Policies

Continued from Page 1
their jobs because of their training and capabilities.

Nondiscriminatory hiring does not mean that minorities will be given preferential treatment in hiring policies. This would be detrimental to the best interests of Y-12, and in the long run would be detrimental also to the employee himself. What it does mean is that all markets of American life will be actively solicited for prospective employees . . . that one segment will not be given preferential treatment over another . . . that merit shall be the prerequisite in hiring and upgrading.

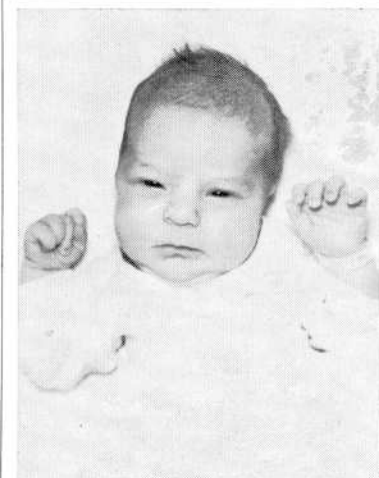

Management in Y-12 is fully aware of the moral and legal responsibilities involved in the Plan for Progress as well as the Civil Rights Law. Management also recognizes the spirit of the law, and pledges moral support to the basis tenets of these democratic principles. In other words, non-discriminatory hiring means more than just abiding by the law.

FOUR UP—FOUR DOWN

Walter Johnson, pitcher, once struck out four men in one inning! Impossible . . . no . . . on April 15, 1911, he struck out two men, the first two at bat. He struck out hitter number three, but the Washington catcher dropped the ball. The player beat the throw to first base. Then Johnson fanned the fourth man up!
